

Subject code: DG-202-4		Subject name: DEMOGRAPHY	
Study cycle: First	Year: 2	Semester: III	ECTS credits: 6
Status: Mandatory		Contact hours: 60 Lectures: 30 Practical courses: 30	
Assigned professors and assistants:		Lecturers and assistants selected for the field to which the course belongs	
Prerequisites:		/	
Subject objectives:		- To acquire fundamental knowledge about demography as a science, the subject of demographic studies, and an understanding of methods used in demographic research. - To enable students to effectively transfer theoretical knowledge in the field of demography into practical applications.	
Teaching units:		1. The subject, tasks, objectives, and significance of demographic studies 2. Sources of population data 3. Overview of demographic development of the population 4. World population – distribution of the population on Earth 5. Theoretical perspectives on population development 6. Demographic transition and population dynamics 7. Natural population change 8. Test I 9. Spatial mobility of the population – migration 10. Urbanization 11. Population structures – biological 12. Population structures – social and cultural-anthropological 13. Population policy 14. Population of Bosnia and Herzegovina – historical development 15. Population of Bosnia and Herzegovina – contemporary demographic trends	
Learning outcomes:		Knowledge: Differentiates and utilizes various sources of population data. Understands the impact of socio-economic and geographic factors on the distribution and size of the population.	

	Skills: Evaluates and compares determinants of overall population dynamics and structures, as well as their causal relationships. Processes and compares demographic indicators based on relevant statistical data. Competencies: Critically evaluates and assesses population policy measures as an integral part of the economic policy of a specific area.																																										
Teaching methods:	Multimedia presentations and discussions (lectures); independent student research through task completion and joint analysis (practical courses).
