

Study program		Study cycle		I study cycle			
		Orientation		Tourism and Environmental Protection			
SUBJECT							
Subject name		Exogenous Geomorphology					
Subject code	Semester	Subject status	ECTS credits	Contact hours			
FG-203.2-3	III	Mandatory	5	125			
Prerequisites							
Assigned professors and assistants	Subject Leader		Dr.sci. Emir Temimović, full professor				
	Teaching Assistants		Ahmed Džaferagić, MA, teaching assistant				
Subject objectives	Acquiring knowledge about various exogenous geomorphological processes and forms developed in this process. Studying and learning about basic genetic types of relief: slope, denudation, abrasive, fluvial, fluvial-denudation, karst, fluvial-karst, nivation, glacial and aeolian. Also, knowledge about the importance of exogenous landforms necessary for various socio-economic activities in the world and Bosnia and Herzegovina is acquired.
