

Study program		Study cycle Orientation		I study cycle Regional and Spatial Planning								
SUBJECT												
Subject name		Tectonic Geomorphology										
Subject code		Semester	Subject status	ECTS credits	Contact hours							
FG-103.1-2		II	Mandatory	5	125							
Prerequisites												
Assigned professors and assistants	Subject Leader		Dr.sci. Emir Temimović, full professor									
	Teaching Assistants		Ahmed Džaferagić, MA, teaching assistant									
Subject objectives	Acquiring knowledge about various endogenous geomorphological processes and forms developed in this process. Studying and learning about tectonic movements and their morphological significance, genesis and evolutionary classification of mountains, tectonic plates and global relief of the Earth and genesis of oceanic basins. Also, volcanic and seismic phenomena and forms will be studied. In conclusion, knowledge about the importance of endogenous landforms necessary for various socio-economic activities in the world and Bosnia and Herzegovina is acquired.											
SUBJECT CONTENT												
Ordinal	Teaching units					Contact hours						
						L	P	Other				
1.	Introduction					2	2	1				
2.	Endogenous forces and their geomorphological significance					2	4	2				
3.	Tectonic movements and forms					2	2	1				
4.	Tangential movements and forms					2	2	1				
5.	Tectogenesis of fold mountains and orogenic phases					2	2	1				
6.	Radial movements and forms					2	2	1				
7.	Tectogenesis of fault mountains					2	2	1				
8.	Test					2						
9.	Cratons and global relief of the Earth					2	2	1				
10.	Macro landforms of the continents					2	2	1				
11.	Bottom relief of the ocean basins					2	2	1				
12.	Volcanic phenomena and forms (Part I)					2	2	1				
13.	Volcanic phenomena and forms (Part II)					2	2	1				
14.	Seismic phenomena and forms					2	2	1				
15.	The importance of endogenous landforms for conducting various socio-economic activities					2	2	1				
STUDENT WORKLOAD (hours)												
Contact Hours	60	Practical work		Seminars	35	Exam study time	30					
Literature – reading		Written papers		Consultations		TOTAL	125					
LITERATURE				EVALUATION OF KNOWLEDGE AND CRITERIA								
MANDATORY:				Parameters	Maximum Points	Minimum points						
<ul style="list-style-type: none"> • Temimović, E., Korjenić, A., Jahić, H.: Tektonska geomorfologija, Prirodno-matematički fakultet Univerziteta u Sarajevu, Sarajevo, 2018. • Marković, M. i dr.: Geomorfologija, Beograd, 2003. • Bognar, A.: Globalna tektonika ploča i reljef Zemlje, Geografski horizont, Zagreb, 1981. • Bognar, A.: Osobine i zakonomjernosti oblikovanja struktornog reljefa Zemlje, Geografski horizont, Zagreb, 1990. 				1. Attendance	5	3						
				2. Participation on lectures	5	3						
				3. Midterm exams	40	22						
				4. Seminar	10	5						
				5. Final exam	40	22						
				Total	100	55
