

Subject code: G/102	Subject name: Research methodology in the field of geographical sciences		
Study cycle: III	Year: I	Semester: I	ECTS credits: 5
Status: Mandatory		Contact hours: 55 Lectures: 45 Research seminar: 10	
Assigned professors and assistants:	Teachers and associates selected in the field to which the subject belongs		
Prerequisites:	/		
Subject objectives:	The aim of the subject is to master concepts of understanding the methods and techniques which are applied in geographical research. Train candidates to be able present the different approaches to data collection, processing and analysis. Harmonizing methods with research goals and understanding the possibilities and scope of quantitative and qualitative research methods		
Teaching units:	<ol style="list-style-type: none"> 1. Methodology of geographical study – concept, definitions, subject, goals and tasks of the study; 2. Theories and methodology of geographical study; 3. The role and importance of geography and relationship with other scientific disciplines in the field of scientific research; 4. Development of study methodology; 6. Research of the problem; 8. Data collection and analysis; 10. Presentation of the data research and their use; 11. Geographical methods and techniques and their use in research; 12. Significant information sources and literature in geographical research; 13-15. The role and possibility of statistical analysis in geographical research; 		
Learning outcomes:	•		
Teaching methods:	Multimedia presentation and discussion (lectures); practical work, educational material analysis and discussion (research seminar/project tasks).
