

Study program		Study cycle		First study cycle	
		Orientation		Regional and Spatial planning	
SUBJECT					
Subject name		Transport geography			
Subject code	Semester	Subject status		ECTS credits	Contact hours
DG-201.3-2	IV	mandatory		5	125
Prerequisites					
Assigned professors and assistants	Subject Leader		Dr. Sc. Rahman Nurković, full professor		
	Teaching Assistant		Aida Avdić, MA, assistant		
Subject objectives	Acquiring the necessary knowledge of the characteristics, types and importance of transportation in the economic structure. Training students for recognizing the complexity of the impact and operation of transport systems in Geospace.				
SUBJECT CONTENT					
#	Teaching units	Contact Hours			
		L	P	S	C
1.	Theoretical and methodological bases of transport geography	2	2	1	1
2.	Geographical and historical retrospect of transport	2	2	1	1
3.	Geographical factors of transport	2	3	1	1
4.	Features of the development of modern transport in the world	2	3	1	1
5.	Flows of goods in the world	2	2	1	1
6.	Geographical elements of transport	2	2	2	1
7.	Test I	2			
8.	The development and distribution of road of transport	2	3	1	1
9.	The development and distribution of rail transport	2	2	1	1
10.	Development of water of transport	2	2	1	1
11.	Air, pipeline, postal, telecommunications and combined transport in the world	2	3	1	
12.	The role of transport in the spatial distribution of economic activities	2	2	1	1
13.	Spatial planning of transport and sustainable development	2	2	1	
14.	The main characteristics of the transport system of Bosnia and Herzegovina	2	2	2	
15.	Presentation of student works	2			
STUDENT WORKLOAD (HOURS)					
Contact Hours (L+P)	60	Practical work		Seminars	10
Literature – reading	20	Written papers		Other (state)	15
				TOTAL	125
LITERATURE			EVALUATION OF KNOWLEDGE AND CRITERIA		
MANDATORY:				PARAMETERS	Maximum Points
					Minimum Points
1. Černe, A. (1992): Metode in tehnike v prometni geografiji, Filozofska fakulteta, Univerze v Ljubljani			1.	Attendance	5
			2.	Participation on lectures	10
2. Nurković, R., 2007: Contemporary bases of road classification and their influence on the regional development of Bosnia and Herzegovina, Proceedings of International Scientific Symposium: "Influence of transport on the regional development, ISBN 978-9958-609-52-7COBISS.BH-ID I6646662, University of Tuzla, Tuzla, p.7-19.			3.	Midterm exam	25
			4.	Seminar	20
			5.	Final exam	40
			Total		100
3. Drešković, N., Nurković, R. 2014: Influence of Transport on Urban and Rural Development in Bosnia and Herzegovina, REAL CORP 2014, 19th Conference on Urban Planning, Regional development and Information Society, Vienna, Austria, 2014.			Notes:		
4. Nurković R., 2016: Geographical aspects of					

contemporary aviation in Bosnia and Herzegovina; Geographical review No.37, 35 – 49, Sarajevo.
